Styling your coffee table

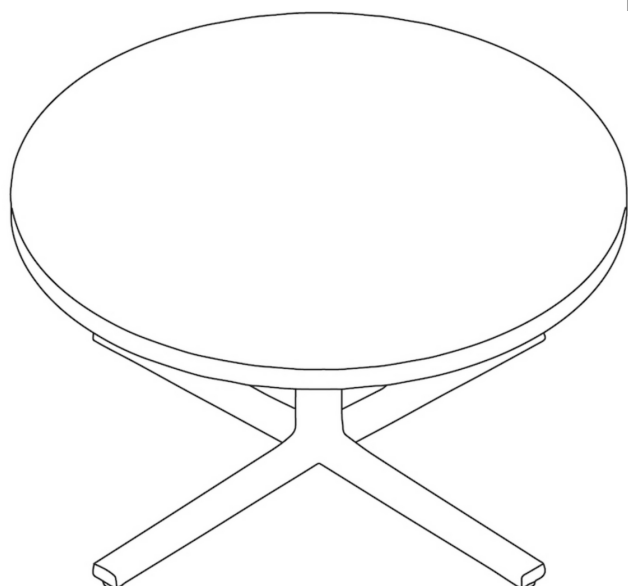

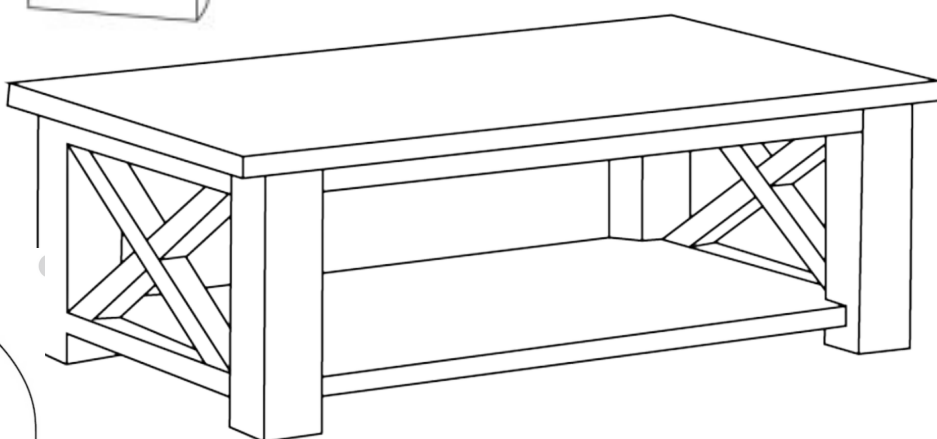

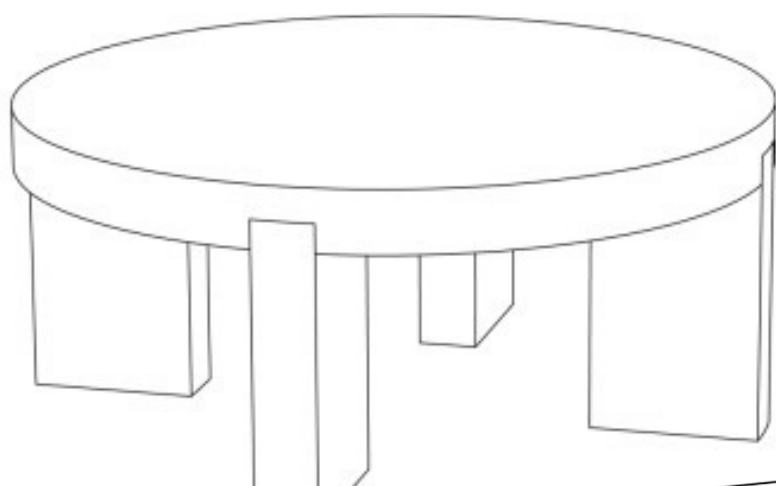

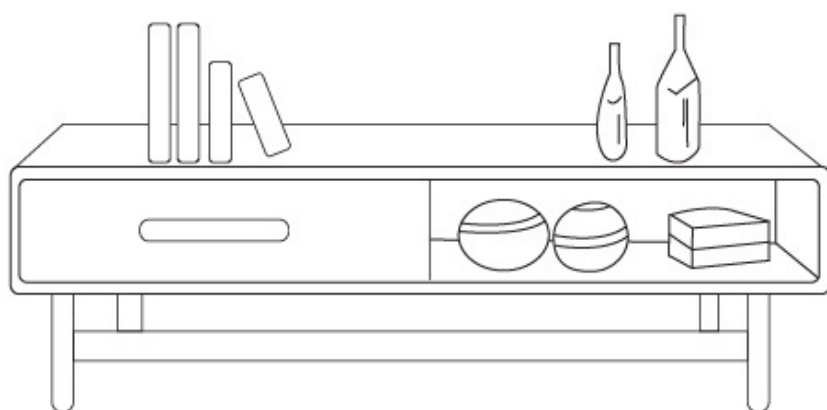

PRO Tips / Shopping List

It's time to plan your design!

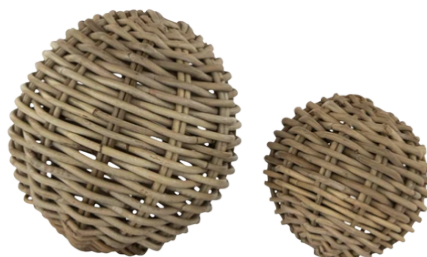

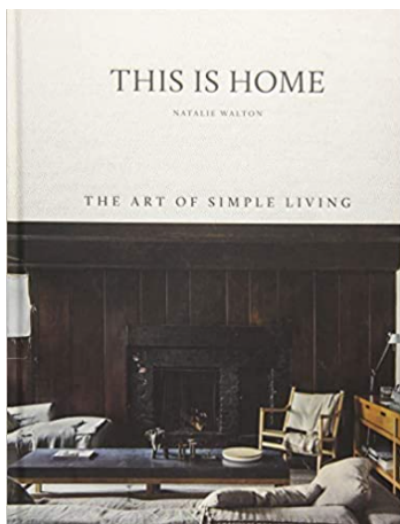

You'll find on the following pages a few different models of coffee tables and design pieces to use as a reference, or you can take pictures of your own items and use it for this exercise.

Pro Tip: Start with your center, a tray, books, etc and then work outwards with candles, low bowls, decorative boxes, smaller trays, coasters.

Use this Space to Sketch or Cut and
Paste your Coffee Table Design

My plan

A large, empty rectangular box with a thick black border, intended for a student to sketch or paste their coffee table design. The box occupies the majority of the page below the title and subtitle.
